

VMware

Exam 1V0-602

VMware Certified Associate 6 – Hybrid Cloud Fundamentals

Verson: Demo

[Total Questions: 10]

Question No : 1

What are three functions of a vCloud Connector Server? (Choose three.)

- A. Control vCloud Connector nodes
- B. Transfer connect from one cloud to another
- C. Coordinate the activity of the vCloud Connector
- D. Provide automation for vCloud Air
- E. Create the vCloud Connector User Interface

Answer: A,C,D

Question No : 2

In vCloud Air, which user role gives privileges to configure resources, such as firewalls, NAT rules, and address pools?

- A. Read-only administrator
- B. Network administrator
- C. Virtual infrastructure administrator
- D. Account administrator

Answer: C

Question No : 3

Which three options represent advantages on implementing VXLANs? (Choose three.)

- A. VXLANs provide distributed firewall services.
- B. VXLANs allow compute resources to be pooled across non-contiguous clusters.
- C. VXLANs allow full-encapsulation at Layer 2, which provides network security.
- D. VXLANs provide the ability to deploy completely customizable networks.
- E. VXLANs provide end-to-end data-link level encryption.

Answer: B,C,E

Question No : 4

What are three ways vCloud Air helps administrators overcome network compatibility constraints with vCloud Air? (Choose three.)

- A. Provides options to administrators to choose their own networking components.
- B. Includes an NSX Edge Gateway which behaves like a core switch with modules for advanced Layer 3 switching.
- C. Supports a bring-your-own security policy, which allows administrators to use their own third-party appliances.
- D. Helps administrators overcome network and security challenges by offering vCloud Air as just another remote site.
- E. Offers networking flexibility where customers can configure networking constructs at a granular level.

Answer: B,D,E

Question No : 5

What are three ways customers can connect their on-premises and vCloud Air virtual datacenters? (Choose three.)

- A. Direct Connect
- B. Public Internet
- C. IPsec VPN
- D. MPLS
- E. vCloud Connector

Answer: A,B,D

Question No : 6

Which two statements are true regarding VMware vCloud Air? (Choose two.)

- A. vCloud Air offers a new set of tools and applications, which can be integrated with the existing data center.

- B. vCloud Air is an extension of the software-defined data center.
- C. vCloud Air allows administrators to move existing workloads to the cloud.
- D. D.vCloud Air enables administrators to redesign their on-premises infrastructure with ease.

Answer: A,C

Question No : 7

Which three statements represent features and functionality of the vCloud Air vSphere Client Plug-In? (Choose three.)

- A. Move workloads from vCloud Air to the on-premises datacenter.
- B. View and administer Dedicated Cloud, Virtual Private Cloud, and Disaster Recovery resources on vCloud Air.
- C. Browse and modify cloud instances and manage inventory of virtual data centers, gateways, and networks.
- D. Deploy virtual machines using catalog templates and modify existing virtual machines.
- E. Create new catalog templates and virtual machines.

Answer: A,B,D

Question No : 8

Which data migration method supports datacenter extension for stretched Layer 2 networks and automated catalog synchronization?

- A. Direct Connect
- B. Offline Data Transfer
- C. vCloud Connector
- D. OVF

Answer: A

Question No : 9

Which three statements are true regarding firewall rules? (Choose three.)

- A. Firewall rules are configured to direct the traffic between an external network and your virtual machine.
- B. Firewall rules in vCloud Air can have one policy for multiple networks.
- C. Firewall rules can be configured to secure the network traffic between any or all the interfaces on a gateway.
- D. By default, gateways are deployed with firewall rules that deny all network traffic to and from the virtual machines on the gateway networks.
- E. Firewall rules can be configured to manage the traffic flowing in and out of your vCloud Air cloud.

Answer: A,C,D

Question No : 10

Which two pieces of information must be specified while configuring VPNs in vCloud Air? (Choose two.)

- A. Firewall Information
- B. Customer Information
- C. Server-Side Information
- D. Edge Gateway information

Answer: A,C
