

VMware

2V0-11.24 Exam

VMware Cloud Foundation 5.2 Administrator

**Questions & Answers
Demo**

Version: 4.0

Question: 1

DRAG DROP

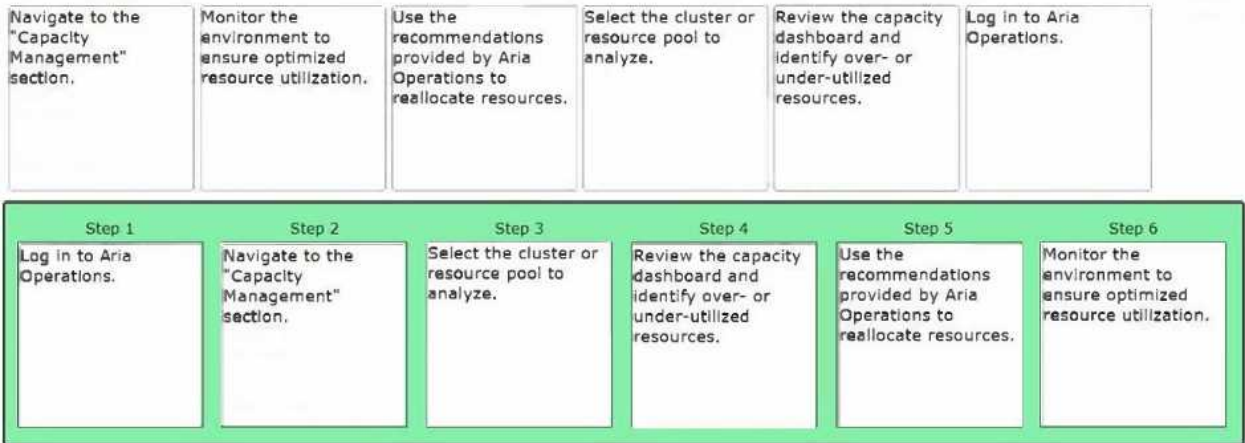

Put the following steps in the correct order to optimize resource allocation using Aria Operations.

1. Navigate to the "Capacity Management" section.	2. Monitor the environment to ensure optimized resource utilization.	3. Use the recommendations provided by Aria Operations to reallocate resources.	4. Select the cluster or resource pool to analyze.	5. Review the capacity dashboard and identify over- or under-utilized resources.	6. Log in to Aria Operations.
---	--	---	--	--	-------------------------------

Step 1	Step 2	Step 3	Step 4	Step 5	Step 6
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Answer:

Explanation:

Question: 2

DRAG DROP

Match each troubleshooting task with its relevant procedure or tool.

Tasks

- Setting a host in maintenance mode
- Resolve host connectivity issues
- Resolve certificate issues
- Troubleshoot snapshot issues

-
-
-
-

Procedures/Tools

- Use the Certificate Manager tool
- Right-click the host and select "Enter Maintenance Mode"
- Check physical connections and network configuration
- Check for orphaned snapshots and consolidate if necessary

Answer:

Explanation:

Tasks

- Setting a host in maintenance mode
- Resolve certificate issues
- Resolve host connectivity issues
- Setting a host in maintenance mode
- Resolve certificate issues
- Resolve host connectivity issues
- Troubleshoot snapshot issues
- Troubleshoot snapshot issues

Procedures/Tools

- Use the Certificate Manager tool
- Right-click the host and select "Enter Maintenance Mode"
- Check physical connections and network configuration
- Check for orphaned snapshots and consolidate if necessary

Question: 3

DRAG DROP

Arrange the steps in the correct order to generate a performance report in Aria Operations.

The interface shows six steps in boxes at the top, which can be dragged into six empty slots below labeled Step 1 through Step 6. The steps are:

- Analyze the report for insights on performance, capacity, and utilization.
- Log in to Aria Operations.
- Navigate to the "Dashboards" section.
- Save the dashboard and generate the report.
- Select the relevant dashboard or create a new one.
- Add the desired performance metrics and widgets to the dashboard.

Answer:

Explanation:

Analyze the report for insights on performance, capacity, and utilization.	Log in to Aria Operations.	Navigate to the "Dashboards" section.	Save the dashboard and generate the report.	Select the relevant dashboard or create a new one.	Add the desired performance metrics and widgets to the dashboard.
--	----------------------------	---------------------------------------	---	--	---

Step 1	Step 2	Step 3	Step 4	Step 5	Step 6
Log in to Aria Operations.	Navigate to the "Dashboards" section.	Select the relevant dashboard or create a new one.	Add the desired performance metrics and widgets to the dashboard.	Save the dashboard and generate the report.	Analyze the report for insights on performance, capacity, and utilization.

Question: 4

DRAG DROP

Arrange the steps in the correct order to resolve host connectivity issues.

Test connectivity using ping and traceroute.	Review network switch configuration and logs.	Verify the network configuration on the ESXi host.	Check the physical network connections.	Restart the network management services on the host.
--	---	--	---	--

Step 1	Step 2	Step 3	Step 4	Step 5

Answer:

Explanation:

Test connectivity using ping and traceroute.	Review network switch configuration and logs.	Verify the network configuration on the ESXi host.	Check the physical network connections.	Restart the network management services on the host.
Step 1 Check the physical network connections.	Step 2 Test connectivity using ping and traceroute.	Step 3 Verify the network configuration on the ESXi host.	Step 4 Review network switch configuration and logs.	Step 5 Restart the network management services on the host.

Question: 5

DRAG DROP

Match each networking issue with the corresponding troubleshooting step.

Issues

- Host in Isolation Response
- Host in Failover State
- Host in Unreachable State

Troubleshooting Steps

- Examine NIC teaming and load balancing configuration
- Verify the port group settings and VLAN configuration
- Check physical network cables and switch port status

Answer:

Explanation:

Issues

Host in Isolation
Response

Host in Failover State

Host in Unreachable
State

Host in Isolation
Response

Host in Failover State

Host in Unreachable
State

Troubleshooting Steps

Examine NIC teaming and load balancing configuration

Verify the port group settings and VLAN configuration

Check physical network cables and switch port status
