Version: 10.1

Case Study: 1

Contoso Ltd, (Case Study)

Current Environment:

Contoso uses Windows Server 2012 to run an on-premises server farm. All production workloads are virtualized.

The server farm runs entirely on-premises.

Current Licensing Solution

Contoso is in the first year of an Enterprise Agreement (EA) that includes Microsoft Office Professional Plus, Windows 10 Enterprise E3 per Device, and Microsoft Core-CAL Suite per user.

Software Assurance (SA) for the windows server was purchased through select SA expired nine month ago.

Business Goal:

Contoso has the following business goals.

- Upgrade its servers to Windows Server 2016.
- Outsource the implementation and management of cloud services.
- Ensure that only authorized users can access computing environments, data and applications
- Leverage its existing investment in on-premises products to reduce the overall cost of online services.

Planned Changes

Contoso plans to implement the following changes:

- Evaluate whether to move the sales employees to Microsoft 365 Enterprise in month seven of the E
- A.
- Extend the server farm to the cloud and deploy Azure Virtual Machine for backup and production purpose.
- Implement an on-premises platform to protect the company's network from advanced targeted attacks by using technologies such as machine learning.

- Implement security measures and privacy policies to protect its computers and to detect investigate and respond to advanced attacks by using a combination of software and cloud services.
- Implement Microsoft Dynamic 365 throughout the company so that employees have access only to the functionality required for their role:
- Administrative employees require basic Dynamic functionality
- Customer Service employees require access to core functionality for sales and customer service.

Question: 1

You need to recommend a solution to help Contoso thwart future cyberattacks. The solution must meet the business goals and support the planned changes.

What should you recommend?

- A. Enterprise Mobility + Security E3 and Office 365 Proplus
- B. Enterprise Mobility + Security E3 and Microsoft Enterprise CAL Suit.
- C. Enterprise Mobility + Security E3 and Windows 10 Enterprise E5
- D. Operations Management and Security E2

Answer: A

Question: 2

Contoso is evaluating whether to acquire Azure services through the Cloud Solution Provider (CSP) program. How does acquiring Azure services through CSP meet the business goals and support the planned changes?
