Question: 1

Which methods can an administrator implement to provide higher security within a management network? (Select two.)

- A. SNMPV3
- B. community strings
- C. NTP
- D. isolated VLAN
- E. port mirroring

Answer: AB

Question: 2

A customer is considering the DL330 Gen9 as the platform standard for its VSAN cluster. The configuration will use 24 drives. Each 8-drive cage will contain 1 SSD and 7 SATA drives. Which array controller should the architect recommend for this configuration?

- A. HPE Dynamic Smart Array B3140i controller
- B. HPE Smart Array P840 controller
- C. HPE SAS Expander
- D. HPE Flexible Smart Array P440ar controller

Answer: D

Question: 3

A system administrator is concerned about a high number of visitors connecting to a company's network in addition to the production network traffic, the network infrastructure is used for the systems management traffic to the company's servers.

What should the administrator do to separate traffic?

- A. implement dynamic routing using the Open Shortest Path First (OSPF) protocol
- B. Split the traffic using the Virtual Local Area Networks (VLAN)
- C. Create multiple Spanning Tree Protocol (STP) instances to carry different types of traffic
- D. Change the priority of the traffic using the Quality of Service (QoS) feature.

Answer: D

Question: 4

A customer's database is slow to respond, and the customer needs response times to be dramatically

increased. Which solution should the architect recommend to achieve this result?

- A. install a new disk drive and make it a hot spare
- B. install a workload accelerator
- C. Use IPv6 protocol instead of IPv4
- D. install a redundant power supply to optimize load balancing

Answer: B

Question: 7

DRAG DROP

Click and drag each HPE Synergy component on the left to match its functionality description on the right,

HPE Synergy component		Description
HPE Synergy Frame Link Module		infrastructure deployment and update
HPE Synergy D3940		integrated frame resource information control point
HPE Synergy Composer		provides storage pool for compute modules
HPE Synergy Image Streamer		management appliance with embedded HPE OneView

Answer:

HPE Synergy component	Description
HPE Synergy Image Streamer	infrastructure deployment and update
HPE Synergy Frame Link Module	integrated frame resource information control point
HPE Synergy D3940	provides storage pool for compute modules
HPE Synergy Composer	management appliance with embedded HPE OneView

Question: 8

A customer needs to eliminate thermal imbalance in its new data center. Which solution should the architect recommended to the customer?

- A. any HPE iPDU
- B. HPE Intelligent Network racks
- C. HPE Rack Air Duck Kit
- D. any Intelligent Series rack

Answer: D

Question: 9

A customer is deploying a new solution that requires a third party VoIP card. Which HPE BladeSystem component is needed to be able to attach the customers existing BL460C Gen9 server blades to the VoIP card?

- A. HPE OneView
- B. HPE Storage Blade
- C. HPE Smart Array P244br controller
- D. HPE PCI Expansion Blade

Answer: D

Question: 10

DRAG DROP

Click and drag the HPE configuration tool on the left to its matching description on the right

Configuration tool		Description
HPE Elite		enables quick and easy creation of price quotations for HPE networking products
HPE Source		helps with determining the correct HPE networking product based on specific requirements
HPE Switch Selector		an HPE-hosted webstore for partners based on an order management system
HPE Networking Online Configurator		an HPE-hosted web application with pre-approved pricing
HPE PartSurfer		tool that provides fast easy access to service parts information for a wide range of HPE products

Answer:

Configuration tool	Description
HPE Networking Online Configurator	enables quick and easy creation of price quotations for HPE networking products
HPE Switch Selector	helps with determining the correct HPE networking product based on specific requirements
HPE Source	an HPE-hosted webstore for partners based on an order management system
HPE Elite	an HPE-hosted web application with pre-approved pricing
HPE PartSurfer	tool that provides fast easy access to service parts information for a wide range of HPE products
