

Contract Administration

Questions & Answers Demo

Version: 4.0

| Question: 1 | | |
|--|-------------------------------------|-------------------------------------|
| What gets measured, gets'? | | |
| A. Measured | | |
| B. Procured | | |
| C. Managed | | |
| D. Lost | | |
| | | |
| | | Answer: C |
| Explanation: | | |
| Managed. This an old management adage, which is intended to encourage managers to measure helpful indicators (not everything!). | | |
| Question: 2 | | |
| Revenue-earning possibilities doing something else. | which are foregone as a result of i | mplementing a plan; the cost of not |
| A. Opportunity cost | | |

| B. Absorption cost | |
|--|------------------------------|
| C. Indirect cost | |
| D. Overhead cost | |
| | |
| | Answer: A |
| Explanation: | |
| | |
| An opportunity cost is the cost of not being able to do something else. | |
| For example, if a firm opts to build a new factory, it may not be able to cre which was another option open to it, in spending these particular funds. Of may not be able to buy a new television. The television is the opportunity benefit foregone. | or if you buy a holiday, you |
| The other types of cost shown are methods of classifying actual (real) cost a sense, not real; they are hypothesized and therefore do not show in the loss account of a business. | |
| Question: 3 | |
| Contracts published by third party experts such as trade associations or pr regarded as favouring neither buyer nor seller, are called: | ofessional bodies, widely |
| A. Uni form | |
| B. Model form | |
| C. Paper form | |
| D. Trans form | |
| E. Good form | |
| | |
| | Answer: B |

| Explanation: |
|---|
| These are 'model form' contracts. Industry standard templates eg NEC ('New Engineering Con-tract'); or FIDIC model form contracts. You will find some examples produced by CIPS on the CIPS website eg for IT procurements. |
| Question: 4 |
| Win-win negotiations can be described as expanding the: |
| A. Pie |
| B. Sky |
| C. Tie |
| D. Dye |
| |
| |
| Answer: A |
| Explanation: Answer: A |
| |
| |
| Explanation: This is the idea that negotiations can be of the sort which shares the (apple) pie, often aggressively and not 50/50 (win-lose); or it can seek to create additional value - expand the pie (win-win). |
| Explanation: This is the idea that negotiations can be of the sort which shares the (apple) pie, often aggressively |
| Explanation: This is the idea that negotiations can be of the sort which shares the (apple) pie, often aggressively and not 50/50 (win-lose); or it can seek to create additional value - expand the pie (win-win). |
| This is the idea that negotiations can be of the sort which shares the (apple) pie, often aggressively and not 50/50 (win-lose); or it can seek to create additional value - expand the pie (win-win). Question: 5 Johnson, Scholes and Whittington suggested three key criteria for options which can be used in the |

| C. Acceptability | |
|------------------|-----------|
| D. Suitability | |
| | |
| | Answer: A |
| Explanation: | |
| | |

'Is it acceptable, feasible and suitable?' are the tests.
