Version: 17.0

Question: 1

HOTSPOT

You need to implement a solution to encrypt email. The solution must meet the compliance requirements.

What should you create in the Exchange admin center and the Microsoft 365 compliance center? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Exchange admin center:

	▼
A connector	
A DLP policy	
A mail flow rule	
An organization sharing relationship	

Microsoft 365 compliance center:

	▼
An auto-labeling policy	
A DLP policy	
A custom sensitive info type	
A sensitivity label	

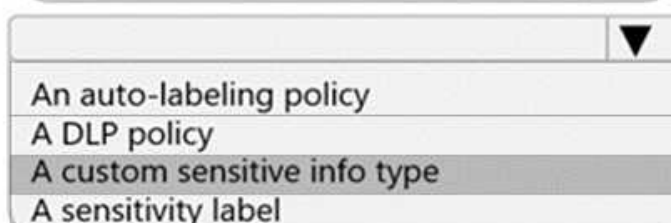

Answer:

Explanation:

Exchange admin center:

Microsoft 365 compliance center:

Users must be able to manually select that email messages are sent encrypted. The encryption will use Office 365 Message Encryption (OME) v2. Any email containing an attachment that has the Fabrikam Confidential sensitivity label applied must be encrypted automatically by using OME.
